

Grant Stacking & Additional Resources

The Port of Virginia **GO-Zero Program** provides funds to purchase zero-emission (ZEV) and near zero- emission (NZEV) drayage trucks and recognizes partners for achieving goals that reduce air pollution and greenhouse gases associated with the transport of cargo through The Port of Virginia.

Unlike the original Green Operator program, GO-Zero will allow participants to take advantage of grant stacking. Below is a list of other potential incentive opportunities.

Additional Incentives:

[Alternative Fuels Data Center: Alternative Fuel Infrastructure Tax Credit \(energy.gov\)](#)

[Commercial Clean Vehicle Credit | Internal Revenue Service \(irs.gov\)](#)

[Charging Your Fleet | Virginia | Dominion Energy](#)

*Additional Dominion Energy Fleet Electrification documents can be found on our website.
